

RQ FLOORS

Prefinished Collections

Lux - Sierra - California

RQ's Collections are based on Rift & Quartersawn White Oak in Select & Character Grades. Plainsawn options are available, as well as additional custom grades. Please inquire at www.rqfloors.com for more details.

Please note that wood is a product of nature that features organic variations in grain & color. Final material is subject to grading rules that are adherent to the integral properties of wood and to RQ's custom milling process.

A modern interior space featuring a large window with a black frame that offers a panoramic view of a city skyline, including the Chrysler Building. The room has a light-colored brick wall and a light wood floor. In the foreground, a brown armchair with two light-colored pillows sits on a striped rug. A large green plant in a white pot is positioned to the right of the chair. The overall atmosphere is bright and sophisticated.

Redefining luxury with each board.
